Rather than just report a school's average SAT scores, the DOE now calculates the percentage of students scoring 1,550 or better, a benchmark that it says is "associated with a high likelihood of college success."<sup>1</sup>

- **78% of An-Noor Academy graduates have exceeded the benchmark set by the Department of Education**
- **The total SAT score places An-Noor students in 85 percentile, which means that the students are in top 15% nationally and did better than 85% of college bound seniors<sup>2</sup>**
